Our audit has included a review of the organization for and the documentation supporting the remuneration to senior executives as well as new decisions related to compliance with the guidelines. Our procedures have also included testing a sample of payments during the year to senior executives. The procedures selected depend on the auditor's judgment, including the assessment of the risks of whether the guidelines have not, in all material aspects, been complied with. In making those risk assessments, the auditor considers internal control relevant to the compliance of the guidelines in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

We believe that our audit procedures provide a reasonable basis for our opinion, as set out below.
